{
    "data": {
        "id": 3,
        "deleted_at": null,
        "name": "NEW ZEALAND",
        "logo": "http://127.0.0.1:8000/media/teams/New-Zealand.png",
        "slug": "wWCmnJ",
        "country": "NEW ZEALAND"
    },
    "statusCode": 200,
    "status": "SUCCESS",
    "message": "Team Created Successfully"
}
```

For Updating and deleting team:-

path('update_team/<pk>/', gameviews.Teams.as_view({'put': 'update', 'delete': 'destroy'})),

http://127.0.0.1:8000/game/update_team/3/

http://127.0.0.1:8000/game/update_team/<pk>/

Note:-Pk is id from database

```
{
    "name": "INDIA",
    "logo": "",   #upload image/
    "country": "INDIA"
}
```

Second page is for creating Player details and listing all the players.

For create and listing (POST and GET)

http://127.0.0.1:8000/game/qNKqkY/playear_details/

http://127.0.0.1:8000/game/<team_slug>/playear_details/

NOte:-team slug will get in list of teams

```
{
  "first_name": "SACHIN TENDULKAR",
  "last_name": "TENDULKAR",
  "logo": " ", #upload image
  "jersey_number": 10,
  "country": "INDIA",
  "no_of_matches": 200,
  "runs": 15921,
  "hieghest_score": 248,
  "fifties": 68,
  "hundreds": 51,
  "team": 1
}
```

For creating and updating we have to upload image and backend will give url in reply

```
GET /game/qNKqkY/playear_details/

HTTP 200 OK
Allow: GET, POST, HEAD, OPTIONS
Content-Type: application/json
Vary: Accept

{
    "data": [
        {
            "id": 1,
            "deleted_at": null,
            "first_name": "SACHIN TENDULKAR",
            "last_name": "TENDULKAR",
            "logo": "http://127.0.0.1:8000/media/players/sachin-tendulkar.jpg",
            "slug": "tDhSFn",
            "jersey_number": 10,
            "country": "INDIA",
            "no_of_matches": 200,
            "runs": 15921,
            "hieghest_score": 248,
            "fifties": 68,
            "hundreds": 51,
            "team": 1
        }
    ],
    "message": "Fetched Player Details Successfully",
    "statusCode": 200,
    "status": "SUCCESS"
}
```

For updating and delete players

http://127.0.0.1:8000/game/qNKqkY/playear_details/1/

http://127.0.0.1:8000/game/<team_slug>/playear_details/**<pk>**/

For third and fourth page
For creating and listing matches

http://127.0.0.1:8000/match/create_match/

For creating JSON:-

```
{
  "team_one": 1    #(team id)
  "team_two": 3    #(team id)
  "match_own": 1   #(winner_ team id)
}
```

Team one	---------	⇕
Team two	---------	⇕
Match own	---------	⇕

POST

Listing results as follows:-
```
{
  "data": [
    {
      "id": 3,
      "deleted_at": null,
      "slug": "FGgJuA",
      "team_one": {
        "name": "INDIA",
        "country": "INDIA"
      },
      "team_two": {
        "name": "SRILANK",
```

```json
                    "country": "SRILANKA"
                },
                "match_own": {
                    "name": "INDIA",
                    "country": "INDIA"
                }
            },
            {
                "id": 5,
                "deleted_at": null,
                "slug": "VDVcWd",
                "team_one": {
                    "name": "NEW ZEALAND",
                    "country": "NEW ZEALAND"
                },
                "team_two": {
                    "name": "INDIA",
                    "country": "INDIA"
                },
                "match_own": {
                    "name": "NEW ZEALAND",
                    "country": "NEW ZEALAND"
                }
            }
        ],
    "message": "Match Details Successfully",
    "statusCode": 200,
    "status": "SUCCESS"
}
```

```
GET /match/create_match/

HTTP 200 OK
Allow: GET, POST, HEAD, OPTIONS
Content-Type: application/json
Vary: Accept

{
    "data": [
        {
            "id": 3,
            "deleted_at": null,
            "slug": "FGgJuA",
            "team_one": {
                "name": "INDIA",
                "country": "INDIA"
            },
            "team_two": {
                "name": "SRILANK",
                "country": "SRILANKA"
            },
            "match_own": {
                "name": "INDIA",

            }
        }
    ],
    "message": "Match Details Successfully",
    "statusCode": 200,
    "status": "SUCCESS"
}
```

For updating and deleting matches

http://127.0.0.1:8000/match/update_match/4/

http://127.0.0.1:8000/match/update_match/**<pk>**/

Updating json:-

```
{
  "team_one": 1    #(team id)
  "team_two": 3    #(team id)
  "match_own": 1   #(winner_ team id)
}
```

Deleted match:-

```
HTTP 200 OK
Allow: PUT, DELETE, OPTIONS
Content-Type: application/json
Vary: Accept

{
    "data": {},
    "statusCode": 200,
    "status": "SUCCESS",
    "message": "Deleted Match Successfully"
}
```

For creating points details:-

http://127.0.0.1:8000/match/FGgJuA/create_points/

http://127.0.0.1:8000/match/<**match_slug**>/create_points/

```
{
  "points": 1
}
```

For listing all the point table vs matches

http://127.0.0.1:8000/match/list_points/

Listing results through get method

```
{
  "data": [
    {
      "id": 1,
      "deleted_at": null,
      "points": 2,
      "match": 1,
